Malmö Airport is situated east of Malmö, in Sturup, and serves both domestic and international destinations.

Copenhagen Airport (Kastrup) is considered as the “second Malmö Airport”. It is only approx. 25 minutes away from the Malmö central station: you cross the Öresund Bridge by train and reach Malmö Central Station in the city centre, there is a train every 20 minutes and the journey takes 22 minutes.

We recommend you to also register for the ELC Conference Landscape and Driving Forces on 8 and 9 October 2009, which will give you at the same time the opportunity to make use of the reduced prices negotiated for a list of hotels by the conference organisation.
